SURPRO

CNC Turning and Milling

surpro
oberflächen in perfektion

- Modern, computer-controlled automatic turning
- Sliding-headstock and fixed-headstock automatic lathes up to 36 mm diameter
- State-of-the-art deep-hole drilling with through-coolant from 0.7 mm diameter
- Machining of brass, silver, gold, stainless steel, titanium, aluminium and plastics
- Serial production in batch sizes from 500 pieces
- Prototypes from a batch size of one
- Milling, turning, embossing and profiling up to 36 mm diameter and 200 mm length
- 5-axis simultaneous milling at up to 80,000 rpm for cutter diameters up to 3.0 mm, and up to 12,000 rpm above 3.0 mm

Specialists in bright turning for over 50 years

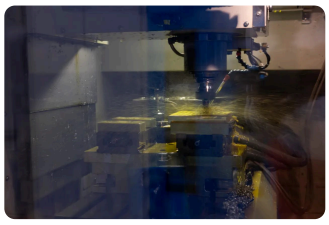

For more than 50 years we have specialised in bright turning on sliding-headstock lathes to achieve flawless, high-gloss surface finishes. Our process-integrated quality management system and state-of-the-art measuring equipment keep production reliably on track.

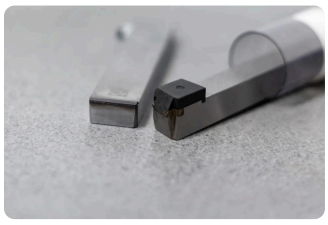

Swiss-type turning

5-axis simultaneous milling

CNC milling

Diamond turning

Do you need turned or milled parts? Would you like to outsource production steps? Give us a call, we are happy to help.
